ACO-20	Breast Cancer Screening	76.78	74.05
ACO-42	Statin Therapy for the Prevention and Treatment of Cardiovascular Disease	69.87	83.37
ACO-40	Depression Remission at Twelve Months	*	
ACO-27	Diabetes: Hemoglobin A1c Poor Control (>9%)	10.32	14.70
ACO-28	Controlling High Blood Pressure	73.99	72.87

[1] CMS waived the CAHPS for ACOs reporting requirement for Performance Year 2020 and will assign all ACOs automatic credit for each of the CAHPS survey measures within the patient/caregiver experience domain (85 FR 84472). Additionally, the measures in the PCE domain are not eligible to earn Quality Improvement award points for Performance Year 2020.

*Please note, the ACO-40 Depression Remission at 12 months quality measure is not included in public reporting due to low sample size. The Centers for Medicare & Medicaid Services (CMS) also waived the requirement for ACOs to field a CAHPS for ACOs survey for PY 2020 through the Physician Fee Schedule Final Rule for Calendar Year 2021. Additionally, CMS reverted ACO-8 Risk-Standardized, All Condition Readmission and ACO-38 Risk-Standardized Acute Admission Rates for Patients with Multiple Chronic Conditions to pay-for-reporting, given the impact of the coronavirus disease 2019 (COVID-19) public health emergency (PHE) on these measures.
